

# RULES & REGULATIONS

To ensure the safety of all golfers and staff, we ask that all golfers always follow the rules and restrictions as stated below while using our simulators.

1. Please use the ballroom entrance doors, located to the right of the main entrance to the club. Staff will allow you in the building when your simulator is ready. These doors will remain locked until this time.
2. A mask must be worn at all times. The mask must always be worn while inside the building, except for when you are seated at your table at your designated simulator.
3. We ask that you always maintain social distancing, keeping 6ft of separation from all others when possible. Sanitizer is available at all stations.
4. Upon entrance, we have a designated waiting area for each simulator, we ask that you remain here until directed to enter the simulator area by staff. From here we ask that you change into your golf/indoor shoes (no outdoor shoes permitted) and leave coats/jackets on your designated racks.
5. Each simulator has separate paths to be used while walking to and from the simulator and washrooms, these will be clearly marked upon entry and we ask that you remain in your designated areas at all times.
6. Food and beverage will be available during play, with full bar and limited food items. Staff will provide full table service at your simulator, golfers will not be permitted to approach the bar for orders, please signal staff members if you are in need of service.
7. Golf balls and tees will be provided, no use of personal golf balls allowed.
8. Your time of play will end 5 minutes before your reserved time. This is to allow proper sanitization and cleaning of all areas. At this time, we ask that you exit out of your designated area, and leave the building promptly, as the next group of golfers will be entering at this time.
