Teeing Position:

The majority of the golfers will tee off from the **White Tees**. Some may choose to play from other tees if they are eligible.

- As has been the case for the last few years, those golfers who have a target of **10 or less**, may, if they wish, tee off from the **Red Tees**. Once you make the decision to play from the Red Tees, you must remain there all year.
- This year, we are making it possible for Senior Members to play from the **Hybrid Tees** as shown on the official Mill Run score card. If you have a target of **15 or less**, you are eligible to play from the tees marked on the scorecard. You will be given a two week trial period in which to make your decision but once made, the decision must be adhered to for the balance of the year.
